Policy Essential Information

Sex and Relationship Education Policy (SRE) *Aspire and Achieve*

Statement of intent

This policy has been written in accordance with statutory provisions and guidance.

It is our intention to teach SRE within Relationships, Sexual and Health Education (RSHE) which is taught within PSHRE is also taught through the Science curriculum.

This policy describes what is taught and the approaches used.

Legal Context

Section 1 of the Educational Reform Act 1988 states that the school curriculum should: “promote the spiritual, moral, cultural, mental and physical development of students” and should prepare them for the “opportunities, responsibilities and experiences of adult life”.

Within this context, the Education Act 1993 introduced new arrangements for sex education in schools. These state that:

- Sex education (including education about HIV and AIDS and other sexually transmitted diseases) must be provided for all students.
- However, the parent of any student may withdraw their child from all or part of the sex education provision except those parts covered by the statutory National Curriculum in Science.
- The school must make a written statement of their sex education policy available to parents.
- Sex education must be provided in such a manner as to encourage young people to have regard to moral considerations and the value of family life.

Objectives

The Jubilee Academy has an integrated approach to teaching SRE. It will be delivered across appropriate curriculum areas as part of students learning about health, their bodies and relationships with others.

SRE will be presented in an objective, sensitive and balanced manner. This will allow students to appreciate the range of sexual attitudes and behaviour in present day societies, with due consideration of morals and the values placed on family life.

Delivery of SRE will be age and maturity related and different religions and cultural diversity will be accommodated as appropriate.

Content of SRE Programme

SRE has three main elements that enable students to:

- Explore their own and other people's attitudes and values;
- Develop and practise personal and social skills;
- Increase their knowledge and understanding.

Values and Attitudes

- Respect for self and others
- Responsibility
- Honesty, commitment and relationships
- Morality and the consequences of decisions
- Value of life

Knowledge and Understanding

Students will gain knowledge and understanding of:

- Physical and emotional changes during puberty
- Human reproduction
- Contraception and abortion
- Sexually transmitted infections
- Subject specific terminology

Personal and Social Skills

- Raise awareness of self and others from different cultures
- Communication
- Interpersonal

Implementation – Responsibilities & Procedures

The Senior Teachers and Science teachers will:

- Plan the school's SRE education programme through Science and the RSHE and curriculum in collaboration with subject staff and tutor/mentors;
- Arrange for visits from the relevant health professionals to contribute to lessons;
- Ensure that a wide variety of teaching methods and materials are used that will enable students to acquire the necessary skills, knowledge and understanding to make informed decisions and develop appropriate attitudes;
- Liaise with the Governing Body and be responsible for monitoring and review of SRE policy;
- Notify parents by letter and at the admission Interview of the right to withdraw their child from all or part of SRE. Parents wishing to do this should write to the Headteacher.

Equal Opportunities and Inclusion

The Jubilee Academy provides SRE for all students and takes into account cultural and religious diversity. SRE will generally be delivered in mixed sex groupings. Teachers may elect to use single sex settings where considered more appropriate.

Monitoring, evaluation and review

This effectiveness of this policy will be regularly monitored and reviewed through the school's self-evaluation schedule.
