

The Careers Service

Our purpose is to develop a wide range of bespoke strategies to empower The Jubilee Academy Students to take ownership of their own career path. We will do this by delivering a robust careers programme which will aid students and their parents/carers to make informed decisions about subject choices and future career pathways. We will support all students to make an informed decision on option choices in years 9&10 and college or apprenticeship choice in year 11.

Objectives

- To provide every student and their parent/carer with information about future study options and labour market opportunities
- To provide independent careers guidance
- To provide access to a range of training and education providers
- To provide every student the opportunity to undertake work experience (Year 10)
- To provide every student with a distinct number of meaningful employer encounters
- To equip all students with the knowledge and experience of interview based scenarios
- To ensure ALL year 11 students have a clear pathway into post 16 education, employment or training
